Series Overview

Raising the bar on modern brackets, the anti-corrosion ceiling mount bracket blends reliability and sophistication into one design. Built to be sturdy with its aluminum alloy die-casting structure, it is both strong and hassle-free to install. The surface is spray-coated with one of the most effective anti-corrosion agents available today, meeting the criteria of NEMA 4X (200 hours). With its integrated design, this bracket outperforms most basic brackets, meeting the needs of locations such as coastal areas, chemical plants and businesses in the energy industry that require anti-corrosion products.
